

Reed & Mackay Travel acquire French TMC, Frequent Flyer Travel Paris

LONDON (30.11.2017) – REED & MACKAY - International TMC, Reed & Mackay continues what has been a significant year by furthering their global footprint through an agreement to acquire Frequent Flyer Travel Paris (FFTP).

“Following on from the launch of the international partnership in April and the investment in German based Travel Management Company, Moll Travel, the acquisition of French TMC, Frequent Flyer Travel Paris (FFTP) creates further opportunities to deliver the extraordinary service we are known for” says Reed & Mackay CEO Fred Stratford.

“FFTP are an incredible business and we are delighted to join forces with them. The alignment between Reed & Mackay and FFTP will bring additional benefits to our clients, creating strength in our European offering as well as ensuring we continue to put the best technology in the hands of the best people in the industry around the world” continues Stratford.

FFTP is one of the few TMCs in France to be accredited to the AFAQ ISO 14001 standards, giving the assurance of compliance to quality standards at all times.

As the only TMC in France with an integrated geolocation service through an exclusive agreement with an industry leading provider, they offer a natural extension of the Duty of Care provision we provide as well as having an in-house 24/7 emergency travel team. They also have a strong events and group travel department capable of servicing full event management.

About Reed & Mackay

Established in 1962 in the heart of the City of London, Reed & Mackay provides business and leisure travel services to busy professionals. In 1988 the business re-positioned as corporate travel management specialists with a clearly defined and differentiated service offering.

Reed & Mackay ensures outstanding service and a significant return on investment for their clients through expertise and industry leading technology.

By placing state of the art technology in the hands of outstanding people Reed & Mackay delivers unbeatable results; they lead the industry in terms of service, savings and security. With over 10 years of investment in their proprietary technology, iQ, they help stakeholders across their client organisations to achieve their goals with a suite of impressive travel tools, including an online booking tool, app and travel risk management platform.

Over the past 10 years, Reed & Mackay have developed an international presence through a network of best in market partners. Through consolidation of data and consistency in service they help businesses to drive savings and traveller experience across the globe. Today Reed & Mackay has a combination of wholly owned and partner offices worldwide.
